SUMMARY

Senior full-stack engineer with 10+ years building and operating B2B e-commerce software. Previously the company's sole engineer and currently its only US engineer, with responsibility spanning databases, DevOps, infrastructure, application development, and production support. Experienced in production operations and ERP integrations for clients with widely varying data requirements.

TECHNICAL SKILLS

Application development: JavaScript, PHP/Slim, React, Next.js, Redux, Python, SQL/MySQL, REST APIs

Cloud and operations: GCP (Compute Engine, Cloud SQL, Cloud Storage), Docker, Git, New Relic

Integrations: QuickBooks, NetSuite, EDI, SFTP, third-party APIs; additional experience with Rails and Django

PROFESSIONAL EXPERIENCE

MyAtOnce | Senior Full-Stack Engineer

Aug 2016 - Present

B2B e-commerce SaaS | Greater Seattle, WA

- Own the production stack, from GCP infrastructure and MySQL databases to legacy PHP, Slim APIs, and React / Next.js / Redux frontends.
- Advise the distributed development team on architecture, integrations, and production issues.
- Designed QuickBooks, NetSuite, EDI, SFTP, and API integrations for clients from small businesses to large organizations, adapting to varied data volumes, formats, and business rules.
- Supported client onboarding through self-service tools, custom ERP integrations, product/SKU mapping, and client-specific business rules.
- Discovered and contained a production malware compromise; led incident analysis, remediation, and application hardening.
- Diagnose and resolve production issues using New Relic and GCP monitoring to support client-facing commerce workflows.

Coding Dojo | Resident / Teaching Assistant

Jul 2015 - Sep 2015

- Assisted fellow residents and built individual and team projects across LAMP, MEAN, Rails, and Django.

JCPenney | Customer Service Specialist

2012 - 2014

BananaGo | Web Developer

2009 - 2012

SELECTED PROJECT

MCP Photoshop Server | Python, MCP, Pillow, ComfyUI

- Built a local Model Context Protocol server that gives coding assistants image editing and AI generation tools, with layered documents, masks, blend modes, undo/redo, multi-document sessions, and regression tests.

EDUCATION

Coding Dojo | Full-stack web development immersive, Black Belt | 2015

Bellevue College | Computer science coursework | 2013 - 2014

Seattle Central College | Nursing coursework, 90 credits | 2009
